Your peace of mind

Having your dental implants placed at London Dental Specialists means you have complete peace of mind. We offer patients a unique warranty on implants which will remain in effect for 10 years.

This essentially means that any additional treatment directly related to the implant will not attract any charge. (hygiene, routine exams and treatments unrelated to the implant will be charged)

We will take care of your implant so you don't have to worry...

During this 10 year period we will agree a maintenance plan with you during which you will be regularly recalled for check-ups and oral hygiene appointments. This means we can fully maintain your implant/s and your oral health.

In the event that implant fails (of the implant in the bone) after the prosthesis (fixed teeth, so as to be clear) has been positioned, London Dental Specialists will ensure that the rehabilitation treatment in the warranty is covered.

Please ask for further information regarding our full T&C's

NB: Smokers cannot be included.

London Dental Specialists

Dedicated to periodontics, prosthodontics,
endodontics, aesthetic & implant dentistry
